NEWS RELEASE 8

November 24, 2017

The Company has filed the application for the admission to the stock exchange

On November 16, 2017, Keswick filed our Company Description for the stock exchange application. We expect the listing in January 2018. The complete document (Company Description) will be published on our website. Due to the Christmas season the filing will only take place in January 2018. We do not expect the market to be hectic as there is no big liquidity in our stock yet.

Am 16. November 2017 hat Keswick unseren Antrag auf Börsenzulassung (Company Description) eingereicht. Wir erwarten das Listing im Januar 2018. Das vollständige Dokument (Company Description) wird auf unserer Webseite veröffentlicht. Dank der Weihnachtspause wird das Listing im Januar 2018 stattfinden. Wir erwarten keine grosse Hektik im Markt, da unsere Aktie noch nicht sehr liquid ist.

TR SoftRay AG has signed the 7th and 8th lease agreement with Prof. Dr. Rudolf A. Rupec in Solothurn, and with Dr. med. Dimiter Iliev in Lucerne, Switzerland.

Prof. Rupec and Dr. Iliev both run their own dermatological praxis. Prof. Rupec is the president of the Dermatological Society of Solothurn. Both have started working with our equipment beginning of this month.

Prof. Rupec und Dr. Iliev betreiben beide ihre eigene dermatologische Praxis. Prof. Rupec ist Präsident der Solothurner Dermatologischen Gesellschaft. Beide haben bereits angefangen, mit der Anlage zu arbeiten.

TR SoftRay PLC is a holding company whose subsidiaries are Swiss companies: TR Röntgen AG (production, technology, service) and TR SoftRay AG (Sales & Marketing) The business field is the international promotion of "dermatological radiotherapy" and the training of medical staff. The company is in the process of becoming publically listed.
